

The Vets Now High Wycombe Team

Vanessa Waite: Principal Veterinary Surgeon

Welsh-born Vanessa graduated from the University of Cambridge in 2008 and has worked for various veterinary practices before becoming our Principal Vet in January 2016.

As well as being a talented vet, Vanessa is also a highly skilled sportswoman, playing for the Welsh basketball and rugby team.

Vanessa has two Atikas called Sushi and Bellini and a beautiful daughter.

Rosa Lopez Colom: Veterinary Surgeon

Originally from Spain, Rosa has worked in several practices in Spain before moving to the UK. She has been with Vets Now since January 2016. Emergency medicine has become her prime interest but Exotic animals have always appealed to her.

In her free-time Rosa likes to cycle and go walking.

Samantha Eley: Veterinary Surgeon

Sam worked for a daytime practice in South Wales for a while before tiring of the routine work of vaccines and anal glands and looking for a new challenge. She volunteered with an animal charity in Cyprus before joining Vets Now in April 2016.

Sam loves the challenge of Emergency Medicine and hopes to specialise and gain further qualifications in this field.

She has a keen interest in travelling, with a special place in her heart for South Africa where she spent time volunteering at a wildlife rehabilitation centre.

Elisha Clarke: Principal Veterinary Nurse

Elisha joined Vets Now in January 2016 having been nursing for 6 years.

She has worked in Borneo for 2 and half months with bears and monkeys and was in charge of 130 cats, 6 dogs, 8 bears and 2 monkeys which was an amazing experience.

Elisha does agility with her Yorkshire terrier called Boo, who is also a Pets as Therapy dog, and Elisha takes him to a nursing home and children's ward every week so they can pet and fuss him (and feed him cake!).

Elisha is a bit of an adrenaline junky and she recently skydived to raise money for national rheumatoid arthritis as her mum suffers from this disease.

Maria Joao de Silva Santos: Veterinary Nurse

Maria is a Registered Veterinary nurse who originates from Portugal. Maria is our newest team member, joining our team in August 2016.

Maria has an interest in small animal Emergency Critical Care and is the proud owner of 4 cats: Maria, Oliver, Camila and Menina (Lady in Portugese)

Carl Teeder: Clinical Administrator

As well as dealing with all the administration, you will often see Carl assisting pet owners at our reception desk.

Carl's background is in hospitality management and he jumped at the chance to transfer his hospitality skills into the veterinary industry to do the job he loves in an animal based environment.

Carl never had pets as a child so when he got his own house he filled it quickly with 5 cats and a dog! He would love to open up a cattery for unwanted and stray cats. He is also very interested in feline behaviour and this is something he's keen to learn more about in the future.
